Delaware Small Grains Summary Report

Dover, DE – The U.S. Department of Agriculture's National Agricultural Statistics Service (NASS) estimated winter wheat production in Delaware at 2.45 million bushels, down 39% from the 2020 total of 4.02 million bushels, according to Shareefah Williams, state statistician of the Delaware Field Office. Area harvested for grain totaled 35 thousand acres, down 36% from 2020. The average yield per acre was estimated at 70 bushels per harvested acre, down 3 bushels from the previous year.

Barley production was estimated at 1.05 million bushels, down 17% from the 2020 total of 1.26 million bushels. The average yield, at 75 bushels per acre, was down 9 bushels from the previous year. Area harvested for barley totaled 14 thousand acres, down 7% from 2020.
